Access Control Points:

- Main Gate Primary Access Point
- Second Gate Alternate Access Point (only as needed)

Post Orders:

See: CR 251 Pelham Police Officer Post Orders

CR 251 Event Security Plan

RESPONSE AREA

The response area crosses two police jurisdictions and is within the Cahaba River Wildlife Management Area (WMA). For that reason we are using resources from Helena Police Department, Shelby County Sheriff's Office (Resources as needed) as well as Game Wardens from Alabama Wildlife Management Areas.

Helicopter Surveillance

This area is very porous and does not have established perimeter. For that reason individuals can get into the area using Power ROW, Colonial ROW, logging and mining roads, not to mention existing Hunting paths.

- The drones are violating the FAA no fly zone (not below 3000' within 3 mile radius). The Drones are not intrinsically safe which poses a risk to our workers on site.
- Due to the risk presented, the Shelby County Sheriff's Office is available for random, intermittent helicopter fly-overs. If the pilot observes suspect activity he will contact an on duty County Sheriff's Officer to respond.

Resource:

Shelby County Sheriff Office

Goal:

Provide strong presence to deter done use and unauthorized access

CR 251 Event Security Plan

WMA Game Wardens

Drive / Monitor Hunting and ATV trails around the response site.

Resource:

Fish and Game Wardens have been deployed to the protected area.

Goal:

Provide Presence to deter use and report disturbances.
